PREFACE

The Literature Catalog is published by Literature and Distribution Services (LDS) to serve the documentation needs of Control Data's sales force, system support personnel, field engineers, and internal/external customers.

The catalog is comprised of seven sections:

o Control Data 4000 Series Documentation

o Hardware - Equipment Identification Number
  This section lists hardware manuals by equipment identification number for individual equipment. Product numbers are included in parentheses after the equipment identification number.

o Hardware - Product/System Number
  This section lists hardware manuals by product or system numbers and many entries include a cross-reference to an equipment identification number.

o Software - Operating System
  This section lists software manuals by operating system and the appropriate product set. Also, application manuals are printed beneath the system number heading. If a software item runs on more than one system, it is listed under each one.

o Miscellaneous
  This section lists both hardware and software publications in alphabetical order by title. Also included in this section are promotional materials for ordering by Control Data sites only.

o Other Sources Of Literature
  ASCENT Publications available from Integrated Information Systems.

o Quick Reference
  This section lists the manuals by publication number.

CONTROL DATA PERSONNEL ORDERING PROCEDURES

LDS ORDER FORM

Use the Order Form (AA1538-2) shown on the preceding page. Complete
the following steps as you fill out the form.

1. Complete shipping address.
2. Department, account and project numbers to be billed.
3. Publications listed in numerical order.
4. Revision packets for manuals are ordered by placing the
    publication number in the first column, the letter P in the column
    marked P, and the revision level needed in the column marked RV.
    If the revision packet is not available and the manual may be
    substituted, enter BOOKFORM ACCEPTABLE under special instructions.
5. Indicate items to be backordered with a B in the B column.
6. Indicate special shipping instructions, etc.

INTERACTIVE ORDERING SERVICE - LOIS

The Literature Order Interactive System (LOIS) has been developed to
allow users to order and query items stocked by LDS. The LOIS System
can be used by all international and domestic Control Data employees.

This system operates on NOS 2 and can be accessed by a CDC 721/722
terminal or an IBM compatible PC.

Our user guide instructs you in the Query Procedure and the LOIS
Interactive Order Procedure. If you would like a copy of our user
guide, please call the LOIS coordinator at LDS. The LOIS help line is
612-482-3802 or C/N 235-3802.

PHONE ORDERS/RUSH ORDERS

NO PHONE ORDERS WILL BE ACCEPTED FROM THE MINNEAPOLIS/ST. PAUL AREA.

All orders placed by phone, fax, or CDCMAIL will be considered a rush
order. Any orders that are mailed to LDS and the originator has
marked as "RUSH" or "ASAP" will also be considered a rush order.

RUSH ORDERS WILL BE CHARGED A $25.00 EXPEDITE FEE, plus the air
freight costs. Rush orders will be shipped air second day delivery
unless overnight delivery is specified.

RETURN TO STOCK

LDS reserves the right to refuse any publications that are being
returned for credit, with the exception of manuals shipped in error
by LDS.

Publications that are unused and at the current revision level stocked
by LDS may be returned only after prior approval has been given. A
copy of the original packing slip MUST be included with the returned
items.
